

CUSTOM BUILT PLASTIC PALLETS

MATERIAL HANDLING DIVISION OF JIFRAM EXTRUSIONS, INC.

Custom Sized Plastic Pallets

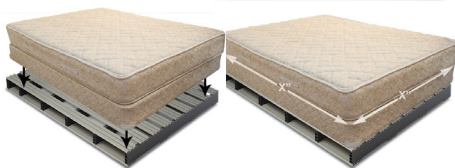

Is it difficult to find a pallet sized for your particular needs?

Jifram can build any size pallet for the ultimate in material handling solutions. Here are some examples of the many made-to-order pallets for very specific needs.

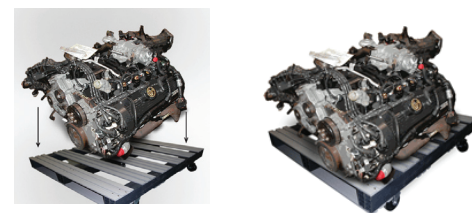

4-way pallets

Handles big & bulky

Customize with casters

Deck boards specific to your needs

Extra long, no problem

Minimal gaps for more surface area & integrity

Benefits of Plastic Pallets:

- Great for exporting-satisfy all requirements
- Extreme fire and flame resistance
- Repel water
- Resistant to bug infestations
- Less warehouse handling injuries-no splinters and rusted nails
- Longer life span than wood with replacement boards available
- Impervious to contamination-plastic pallets can be cleaned easily under pressure
- Many major insurance companies offer discounts for using plastic pallets
- Save one million forest acres every year by using plastic
